PROCEEDINGS

OF THE

ROYAL SOCIETY OF LONDON

SERIES A

CONTAINING PAPERS OF A MATHEMATICAL AND PHYSICAL CHARACTER.

VOL. CII.

LONDON:

PRINTED FOR THE ROYAL SOCIETY AND SOLD BY
HARRISON AND SONS, LTD., ST. MARTIN'S LANE,
PRINTERS IN ORDINARY TO HIS MAJESTY.

MARCH, 1923.

LONDON :
HARRISON AND SONS, LTD., PRINTERS IN ORDINARY TO HIS MAJESTY,
ST. MARTIN'S LANE.

CONTENTS.

SERIES A. VOL. CII.

Minutes of Meetings, November 2, 9, 16, 23, 30 ; December 7, 1922 ; January 18, 25 ; February 1, 8, 15, 22, 1923.

No. A 714.—October 2, 1922.

PAGE

Spontaneous Incandescence of Substances in Atomic Hydrogen Gas. By R. W. Wood, For. Mem. R.S. 1

On the Scattering of β-Rays. By H. A. Wilson, F.R.S., Rice Institute, Houston, Texas, U.S.A. 9

A Study of Catalytic Actions at Solid Surfaces. Part VIII.—The Action of Sodium Carbonate in Promoting the Hydrogenation of Phenol. By E. F. Armstrong, D.Sc., F.R.S., and T. P. Hilditch, D.Sc. 21

A Study of Catalytic Actions at Solid Surfaces. Part IX.—The Action of Copper in Promoting the Activity of Nickel Catalyst. By E. F. Armstrong, D.Sc., F.R.S., and T. P. Hilditch, D.Sc. 27

On the Absorption of λ 5460·97 A. by Luminous Mercury Vapour. By Prof. J. C. McLennan, F.R.S., D. S. Ainslie, M.A., and Miss F. M. Cale, B.A., University of Toronto. (Plate 1) 33

The Effect of Temperature on Gravitative Attraction. By P. E. Shaw, B.A., D.Sc., and N. Davy, B.Sc., A.R.C.S. Communicated by Prof. E. H. Barton, F.R.S.... 46

The Loss of Energy of an *α*-Ray Beam in its Passage through Matter. Part I.—Passage through Air and CO_2. By P. L. Kapitza, Lecturer in Physics in the Polytechnic Institute, Petrograd. Communicated by Prof. Sir E. Rutherford, F.R.S. 48

The Relation between the Evolution of Heat and the Supply of Energy during the Passage of an Electric Discharge through Hydrogen. By J. Keith Roberts, M.Sc., Trinity College, Cambridge ; Exhibition of 1851 Scholar of the University of Melbourne. Communicated by Prof. Sir E. Rutherford, F.R.S. 72

Free Motion of a Sphere in a Rotating Liquid parallel to the Axis of Rotation. By S. F. Grace, University of Liverpool. Communicated by G. I. Taylor, F.R.S. 89

No. A 715.—November 1, 1922.

On the Mutual Threading of Vortex Rings. By W. M. Hicks, F.R.S. 111

A Spectroscopic Investigation of the Ionisation of Argon by Electron Collisions. By Frank Horton, Sc.D., Professor of Physics in the University of London, and Ann Catherine Davies, D.Sc., Royal Holloway College. Communicated by Sir J. J. Thomson, O.M., F.R.S. 131

PAGE

The Molecular Scattering of Light in Vapours and in Liquids and its Relation to the Opalescence observed in the Critical State. By K. R. Ramanathan, M.A., Demonstrator in Physics, H.H. the Maharajah's College, Trivandrum; University of Madras Research Scholar, Calcutta. Communicated by Dr. Gilbert T. Walker, F.R.S. 151

The Motion of Ellipsoidal Particles Immersed in a Viscous Fluid. By G. B. Jeffery, M.A., D.Sc., Fellow of University College, London. Communicated by Prof. L. N. G. Filon, F.R.S. 161

The Motion of a Sphere in a Rotating Liquid. By G. I. Taylor, F.R.S. 180

Polarisation of the Light Scattered by Mercury Vapour near the Resonance Periodicity. By Lord Rayleigh, F.R.S. 190

The Scattering of Hydrogen Positive Rays, and the Existence of a Powerful Field of Force in the Hydrogen Molecule. By G. P. Thomson, M.A., Fellow of Corpus Christi College, Cambridge, Professor of Natural Philosophy in the University of Aberdeen. Communicated by Sir J. J. Thomson, F.R.S. 197

Multenions and Differential Invariants.—II. By Alex. McAulay, Professor of Mathematics in the University of Tasmania. Communicated by W. B. Hardy, Sec.R.S. 210

No. A 716.—December 1, 1922.

On the Characteristics of Cylindrical Journal Lubrication at High Values of the Eccentricity. By T. E. Stanton, D.Sc., F.R.S. 241

On the Fluorescence of Æsculin. By J. C. McLennan, F.R.S., Professor of Physics, and Miss F. M. Cale, M.A., University of Toronto 256

The Propagation of Gravitational Waves. By A. S. Eddington, F.R.S. 268

A New Method for Studying Ionising Potentials. By H. D. Smyth, Ph.D., National Research Fellow in Physics, U.S.A. Communicated by Prof. Sir Ernest Rutherford, F.R.S. 283

On the Analysis of α-Ray Photographs. By P. M. S. Blackett, B.A., Charles Kingsley Bye-Fellow, Magdalene College, Cambridge. Communicated by Prof. Sir E. Rutherford, F.R.S. (Plate 2.) 294

On the Structure and Chemical Activity of Copper Films, and the Colour Changes accompanying their Oxidation. By C. N. Hinshelwood, B.A., Fellow of Trinity College, Oxford. Communicated by Prof. J. W. Nicholson, F.R.S. 318

On Measurements of Electrode Potential Drop with Direct Current and Alternating Current Electrolysis. By S. Marsh, B.Sc., Ph.D., and A. E. Evans, B.Sc. Communicated by E. H. Griffiths, F.R.S. 328

Variation of the Intensity of Reflected X-Radiation with the Temperature of the Crystal. By Ivor Backhurst, B.Sc. Communicated by Sir William Bragg, K.B.E., F.R.S. 340

PAGE

An Investigation of the Colour Vision of 527 Students by the Rayleigh Test. By R. A. Houstoun, D.Sc., Lecturer on Physical Optics in the University of Glasgow. Communicated by Prof. A. Gray, F.R.S. 353

The Line of Action of the Resultant Pressure in Discontinuous Fluid Motion. By S. Brodetsky, M.A., Ph.D., University of Leeds. Communicated by Sir George Greenhill, F.R.S. 361

No. A 717.—January 1, 1923.

Address of the President, Sir Charles S. Sherrington, at the Anniversary Meeting, November 30, 1922 373

On the Excitation of Characteristic X-Rays from Light Elements. By J. C. McLennan, F.R.S., Professor of Physics, and Miss M. L. Clark, B.A., University of Toronto 389

A Theory of Meteors, and the Density and Temperature of the Outer Atmosphere to which it Leads. By F. A. Lindemann, F.R.S., Professor of Experimental Philosophy, and G. M. B. Dobson, M.A., Lecturer in Meteorology, University of Oxford..... 411

The Theory of the Scattering of α- and β-Rays. By J. H. Jeans, Sec.R.S. 437

Spectrum of Active Nitrogen as Affected by Admixture of the Inert Gases, with a Note on the Origin of the Cyanogen Spectrum. By Lord Rayleigh, F.R.S. (Plate 3) 453

Directional Observations of Atmospheric Disturbances, 1920–21. By R. A. Watson Watt, B.Sc., F.Inst.P. Communicated by Sir Henry Jackson, F.R.S. 460

The Quantum Theory and Electromagnetic Phenomena. By William Wilson, Ph.D., D.Sc., Professor of Physics in the University of London. Communicated by Prof. J. W. Nicholson, F.R.S. 478

The Carbon Arc Spectrum in the Extreme Ultra-Violet. By F. Simeon, B.Sc., F.Inst.P., Physicist in the Research Laboratory of Adam Hilger, Ltd. Communicated by Prof. A. W. Porter, F.R.S. (Plate 4)..... 484

Changes in the Charge of an α-Particle passing through Matter. By G. H. Henderson, Ph.D., 1851 Exhibition Scholar of Dalhousie University, Halifax, N.S. Communicated by Prof. Sir E. Rutherford, F.R.S. (Plate 4)..... 496

No. A 718.—February 1, 1923.

The Crystalline Structure and Properties of Tartaric Acid. By W. T. Astbury, B.A. Communicated by Sir William Bragg, F.R.S. 506

On the Quantum Theory of the Simple Zeeman Effect. By A. M. Mosharrafa, B.Sc., University of London, King's College. Communicated by Prof. O. W. Richardson, F.R.S. 529

The Magnitude of the Gyromagnetic Ratio. By O. W. Richardson, F.R.S., King's College, London 538

PAGE

Stability of a Viscous Liquid contained between Two Rotating Cylinders. By G. I. Taylor, F.R.S. (Abstract) 541

Discontinuous Fluid Motion Past Circular and Elliptic Cylinders. By S. Brodetsky, M.A., Ph.D., University, Leeds. Communicated by Prof. G. H. Bryan, F.R.S. 542

The Propagation of Earthquake Waves. By J. H. Jeans, Sec.R.S. 554

The Coincidence Method for the Wave-Length Measurement of Absorption Bands. By H. Hartridge. Communicated by Prof. J. N. Langley, F.R.S. 575

On the Changes in Iron and Steel at Temperatures below 280° C. By Frank Charles Thompson, Professor of Metallurgy, University of Manchester, and Edwin Whitehead. Communicated by Prof. H. C. H. Carpenter, F.R.S. 587

Smokes: Part I.—A Study of their Behaviour and a Method of Determining the Number of Particles they Contain. By R. Whytlaw-Gray, J. B. Speakman, and J. H. P. Campbell. Communicated by Prof. A. Smithells, F.R.S. (Plate 5) 600

Smokes: Part II.—A Method of Determining the Size of the Particles in Smokes. By R. Whytlaw-Gray and J. B. Speakman. Communicated by Prof. A. Smithells, F.R.S. 615

The Significance of the Electrode Potential. By Jaroslav Heyrovský, D.Sc., Ph.D. Communicated by Prof. F. G. Donnan, F.R.S. 628

The Effect of Long Grinding on Quartz (Silver Sand). By Rames C. Ray, M.Sc. Communicated by Dr. M. W. Travers, F.R.S. 640

No. A 719.—March 1, 1923.

Bakerian Lecture: The Distortion of an Aluminium Crystal during a Tensile Test. By G. I. Taylor, F.R.S., and C. F. Elam 643

Studies of Iridescent Colour, and the Structure producing it.—I. The Colours of Potassium Chlorate Crystals. By Lord Rayleigh, F.R.S. (Plates 6 and 7) ... 668

Studies of Iridescent Colour, and the Structure producing it.—II. Mother-of-Pearl. By Lord Rayleigh, F.R.S. (Plate 8)..... 674

Investigations on the Paramagnetic Sulphates at Low Temperatures. By L. C. Jackson, M.Sc., A.Inst.P., "1851 Exhibition Research Scholar," and Prof. H. Kamerlingh Onnes, For.Mem.R.S. 678

Investigations on the Paramagnetism of Crystals at Low Temperatures. By L. C. Jackson, M.Sc., A.Inst.P., "1851 Exhibition Research Scholar," and Prof. H. Kamerlingh Onnes, For.Mem.R.S. 680

Pleochroic Haloes of Various Geological Ages. By J. Joly, Sc.D., F.T.C.D., F.R.S. (Plate 9) 682

The Potential Difference occurring in a Donnan Equilibrium and the Theory of Colloidal Behaviour. By A. V. Hill, F.R.S. 705

PAGE

The Periodic Opacity of Certain Colloids in Progressively Increasing Concentrations of Electrolytes. By J. Holker, D.Sc., M.D. Communicated by Prof. A. V. Hill, F.R.S. 710

The Kinetic Energy of Electrons Emitted from a Hot Tungsten Filament. By J. H. Jones, B.Sc, Ph.D. Communicated by Prof. O. W. Richardson, F.R.S ... 734

The Production of Artificial Vowel Sounds. By Sir R. A. S. Paget, Bart. Communicated by Sir W. Bragg, F.R.S. 752

On the Steady Motion of a Cylinder through Infinite Viscous Fluid. By Arthur Berry, M.A., Fellow of King's College, Cambridge, and Lorna M. Swain, Fellow of Newnham College, Cambridge. Communicated by H. W. Richmond, F.R.S. 766

Obituary Notices of Fellows Deceased :—

Sir Alfred Bray Kempe (with portrait) i
Sir William Christie xi
William Gowland (with portrait)..... xvi
E. H. Grove-Hills xx
G. W. Walker xxii
C. G. Knott xxvii
Jacobus Cornelius Kapteyn xxix
